

## RESUME:

### Don Bergstrom

Don has been involved in environmental contracting for over 24 years, working for a variety of private and public clients throughout the region. Experienced at working for and negotiating with federal, state, and local officials on a variety of complex projects, Don has extensive experience in:

- Subsurface Remediation
- Landfill Capping
- UST/AST Removal & Installation
- In-Situ Treatment
- Pump & Treat System Installation
- Waste Disposal Management
- Slope/Erosion Stabilization
- Stream & Wetland Restoration

Don has extensive experience working in the Environmental Construction Industry at all levels from the ground up. The following is a small sample of Don's previous relevant project experience.

**AST/UST Installation and Removals – Ohio and Surrounding States:** For the last 24 years Don has worked as a labor, operator, Foreman, Superintendent, Estimator, and Project Manager on all types of Aboveground and Underground Tanks. Don has Installed Tanks at all types of facilities such as federal, state, and local government fleet facilities, hospitals, airports, factories, retail sites, and homes. Don has also performed hundreds of tank removals along with remediations of petroleum contaminated sites all over Ohio.

**Remediation Project – Columbus, OH.** Project Superintendent for the In-Situ Treatment of Hazardous soils from a Dry Cleaners to a Non-Hazardous level to then be disposed of at a Subtitle D landfill. Coordinated as the General Contractor with Environmental Engineering Firm hired by the customer. Worked with the Engineering Firm on the soil and water sampling for waste profiling. Profiled, manifested & loaded out 5,000+ tons of non-hazardous contaminated soil for proper disposal. Provided frac tanks for the containerizing of the impacted water. Profiled, manifested & loaded out 40,000+ gallons of non-hazardous contaminated water & sludge for proper disposal. Supervised the confined space entry of the frac tanks for decontaminating prior to de-mobilizing.

**Stream & Wetland Restoration/Erosion Control – Ohio.** Project Manager/Superintendent on several stream/wetland restoration and bank stabilization projects. Managed and performed earthwork, water management, installation of various types of in-stream structures, wetland features, erosion matting, seeding and plantings.

#### Professional Training & Education:

- Indiana University Kokomo, College Courses
  - State of Ohio (BUSTR) UST Installer Certification
  - OSHA 10-hour Construction Safety
  - OSHA 30-hour Construction Safety
  - OSHA 40-hour HAZWOPER Training
  - OSHA 8-hour HAZWOPER Continued Education (annual)
  - Confined Space Entry Supervisor Training (29 CFR 1910.146)
  - Competent Person Trained
  - Trenching and Excavation Safety Trained
  - Hazard Communication Training (safety data sheets & labeling)
  - Cargo Tanker Specialist Training (29 CFR 1910.120)
-
